Pentathlon notes: Two pits will be used for HJ – each with different starting heights, one lower and one higher. Depending on the number of entries, girls may be split into two sub-groups – one group will LJ first, the other SP first, then switch before combining again for HJ. The boys may do the same after finishing HJ.

Steeplechase notes: Novice participants should strongly consider entering the developmental races. In the past, they have proven to be highly competitive and an excellent choice for rookies.

Racewalk notes: Please encourage all interested participants to enter, but review and practice the racewalk rules and techniques required for the discipline.
